"LITTLE DINNER" FIGURES IN THE NEW HAVEN TRIAL

Given to Connecticut Solons in Appreciation of Killing of Competing Charter.

NEW YORK, November 6 .- "A little linner," given by John M. Hall, former resident of the New York, New Haven and Hartford railroad, to the railroad mmittee of the lower house of the Connecticut legislature, figured in the estimony introduced by the government at the trial of the eleven former charged with violation of the Sherman according to a letter written by Hall as the culmination of political activi-ties in behalf of the New Haven which resulted in the failure of a Connecticut trolley company to obtain a charter to build a line paralleling the New Haven. It was the Montville line, running from

roton to Norwich, Conn. "I went over to the capitol," Hall wrote, June 9, 1897, to E. C. Robinson, a New Haven director, "and found the allroad committee had resurrected the senate. As I was all alone, I had to fly around among the senators and get them to rebury it. At the little dinner we gave the committee afterward at the Hartford Club, they seemed well satisfied. In view of the fact that some of them will be back again two years hence, I thought it was well to show them this little attention."

This and other letters written by Hall to obtain legislation to defeat the charter were put in by the government, according to R. L. Batts of its counsel, to show the "illegitimate means or any means" employed by the New Haven to thwart competition.

MR. WILSON APPROVES **AERIAL COAST PATROL**

Movement by Private Citizens at Portland, Me., for Inauguration of System Indorsed.

President Wilson has approved of the the inauguration of a system of aerial United States. The movement has been started by private individuals, who propose to place their service at the disposa of the federal government in time of war. The President was informed by the Portland Chamber of Commerce that it ville, Augusta, Brunswick, Bath and Lewiston to raise \$10,000 to purchase a hydroaeroplane and the equipment of an aerial coast patrol to cover the coast from Portsmouth to the mouth of the Penobscot

Essential for National Defense.

It was suggested that such a patrol was essential for national defense, and that the step taken in Maine might serve to encourage similar action by other states through which the entire coast line would be protected. The President sent the following tele-

gram to the president of the Portland

"I join with the Secretary of War and the Secretary of the Navy in feeling a very great interest in the development of the aeroplane service in this country, and in hoping that your citizens will meet with entire success in their interesting undertaking."

Mail Carriers and Thanksgiving. To the Editor of The Star:

Several days ago I read in your paper hat Postmaster M. O. Chance was trying to see some way to give every mail carrier a full day holiday on Thanks-giving day. I have never seen any reason why they, as well as everybody else, should not be given the full day. For is it not a legal holiday? A proclamation has been issued by the President of the United States, and, with this country at peace with the entire world and with plenty, it seems to me this should be a greater Thanksgiving day than ever, for we have everything to be thankful for. For my part, I would like to see this day observed from now on as a day of rest with prayer and thanksgiving. There is no mail so important that the entire post office should not be given Thanksgiving holiday the same as any Sunday.
